Subject: EPHAR Early Career Researcher Group

Dear colleagues,

EPHAR would like to increase the number of early career researcher group members who will participate in EPHAR activities. Therefore, we kindly ask member societies to propose each a young investigator (less than 35 years old) who is a member of the respective society who has finished her/his PhD no more than 5 years ago. We also would like to remind member societies that have made suggestions before that they may send a different name.

Please send the name of the early career researcher representing your Society to the Secretary General of EPHAR, Prof. Nezahat Tugba Durlu-Kandilci (e mail: ndurlu@hacettepe.edu.tr and cc secretariat.epharm@sagr.it).

Warm regards,

Prof. Nezahat Tugba Durlu-Kandilci
